<sup>1</sup> Based on 20% sample. <sup>2</sup> For comparison with the later censuses, deductions have been made as follows: 577 plots under 1 acre in 1901 and 455 in 1911. <sup>3</sup> "Full ownership" means that the operator holds the title to all the land which he operates. It does not necessarily mean that the farm is free of debt. <sup>4</sup> Land area revised since 1931. <sup>5</sup> Includes "operated by a manager". <sup>6</sup> Includes field, garden, orchard and nursery crop land. <sup>7</sup> Includes idle land. <sup>8</sup> Includes automobiles. <sup>9</sup> Does not include value of "Other poultry". <sup>10</sup> Mortgages only. <sup>11</sup> Reported on buildings and land operated by the owner. <sup>12</sup> On all land and buildings owned by farm operators, including farm property owned by these operators and rented to someone else. <sup>13</sup> Does not include rent for farms operated by share tenants and by cash and share tenants. <sup>14</sup> Includes estimated value of rent paid in kind and on a share basis.
